

## Head Trip: Futanari Erotica (Short Fling Fiction)

I want to wake up tomorrow and feel like I had some fun tonight, for once. Larwin is the kind of guy who keeps his ducks in a row and his urges buttoned down. Way down. Unlike his hedonistic roommate Tessil, hes a company man, at least he thinks of himself as one despite being on the bottom of the corporate hierarchy. Until one more awful reassignment to a surveying crew on a farflung moon makes him realize that hes been missing out. Tessil has had a crush on his roommate Larwin since they were both growing up in the same neighborhood. Now he finally has a chance to have some fun with his sexy friend, and hes invited his sometimes lover to join them. Ericine is a stylish woman with a commanding air. Shes got a little bit more than the average woman between her legs, and a love for wrapping men around her little finger. She brings muscled hottie and some party favors along from the nightclub, the more the merrier, right? Larwin starts to worry if hes gotten himself in a bit over his head as soon as Ericine and her latest boy toy burst through the door. Will Tessil finally get his man? What does the lovely lady Ericine have in store for the tentatively adventurous Larwin? What unknown pleasures will he discover? Will Tessil and Ericine press their buckled down friend too far? This 11,365 word short story is intended for an adult audience. (For more excerpts, take a peek inside the book. The contents are just too hot to post here!)
