

Surface Design for Fabric

Surface Design for Fabric is a comprehensive, how-to guide to more than 60 surface design techniques for various fabrics and leather-ranging from the traditional to the experimental. Highly illustrated with more than 600 color images, the step-by-step instructions and photographs demonstrate surface design techniques, allowing readers to quickly grasp the material and further explore and experiment on their own. Irwin covers a broad range of surface design techniques including: dyeing, staining, removing color, resists, printing and transfer, fiber manipulations, fabric manipulations, embroidery, and embellishments. This modern studio resource clearly guides readers in the creation of beautiful, innovative, and professional surface designs.

Key Features~STUDIO: Surface Design for Fabric provides online access to video tutorials featuring select techniques from each chapter; student self quizzes with results and personalized study tips; and flashcards with definitions and image identification to help students master concepts and improve grades~**Chapters** feature a fabric selection quick guide, tools and materials, how to set up your workspace, application methods, and safety guidelines for each technique.~**Designer Profiles and Collection Spotlights** show current examples of surface design end uses in fashion design, textile art, fine art, and interior design~**Environmental Impact boxes** address critical environmental and sustainability issues and concerns for each chapter~Includes helpful hints, important facts, shortcuts and mistakes to avoid throughout chapters**Instructors Resources**~**Instructors Guide and Test Bank**
