Melody in Control

Melody always hated her roommates boyfriend, so when Kim comes home in tears after finding him in bed with someone else, Melody is happy to have her back. She takes Kim to a nightclub to help her get over the breakup, and decides that what Kim really needs is a good, hard fucking. So, she arranges one, taking charge and controlling not only her friend, but also Tony, the jock who tried his luck and ended up with a lot more than he bargained for.Later, Melody dominates Kim in a hot girl on girl session featuring her brand new double-ended dildo.This story of approx. 8,000 words contains very graphic descriptions of m/f and f/f sex.EXTRACTTony, Melody ordered, take out your cock.Kim snatched her hand back as if electrocuted, while Tony hurriedly obeyed, unzipping his fly and pulling his pants down to reveal a decently-sized cock, almost fully erect now.Not bad, Tony, Melody said with a smile, reaching down and curling her fingers around the shaft. She looked at Kim as she started slowly stroking her hand up and down, quickly bringing Tony to full hardness. I think youll do, nicely.Kim seemed almost hypnotized as she passively allowed Melody to take hold of her small hand once more, and place it on Tonys cock. Melody covered Kims tiny hand with hers as she moved it slowly up and down, holding Kims hand in place and making her stroke the hot, hard shaft.Melody reached a fingertip up towards the side of Kims face, idly tucking a stray lock of hair back behind her ear as Kim continued, in a daze, to stroke Tonys cock.Isnt that a lovely cock, Kimmie? Melody asked. Say, Yes, Deedee, she ordered.Yes, Deedee, Kim breathed, as she watched her hand. The expression on her face said that Kim couldnt believe that it was actually her own hand doing this - that this hand, as it slowly stroked the rigid shaft, must surely belong to someone else.I bet youd like to feel that
