

Bound as the World Burns (A BMWW Apocalyptic Romance)

At the end of the world, Cassidy found something she never expected: Love. The sweet college freshman never even made it to her first day of classes. She never dreamed shed be trapped in a bunker during the apocalypse, and her parents would not approve just how quickly she fell for the buff black man, Leon. He teaches her how to serve and please him, and she realizes just how much she needed a dominant man to take care of her. The end of the world is nigh, and emotions run high in the desperation of the moment. Is it just a fling as everything collapses around them? Or can something more blossom?
