

## The Best Example of Green Architecture

Hear About the Most Beautiful and Greenest School of Art, Design, and Media at Nanyang Technological University in Singapore. This book was written for an undergraduate art class. Our assignment was to develop a review of a popular building consisting of green architecture and use art definitions and scholarly opinions to review that building. I received a high grade for this essay, and my college professor was very pleased with my writing. This is a beautiful building and deserves recognition not by the media, but also by a scholarly author and artist. Dive into this book to learn about one of the most beautiful buildings in the entire world. Author holds an Associates Degree of Business Management Technology as well as a Bachelors Degree of Business Administration from Tiffin University.
