

Grey Seas Under: The Hazards and Triumphs of the Deep-Sea Salvage Tug Foundation Franklin

Author Farley Mowat tells the story of a small, ocean-going salvage tug, the Foundation Franklin, and the rescue work she did over a 15-year period to save ships buffeted by wind, storm and sea on the cruel waters of the North Atlantic. Canadian owners bought her from a graveyard of rusting ships and refurbished her 156 feet. Despite her antiquated appearance, she saved literally hundreds of ships and thousands of lives. Mowat describes the epic struggle of the Franklin and her crew against their ancient enemy, the sea, with a life-and-death intensity. And his account of the rigors of the war years, when the Franklin went out unprotected into waters patrolled by the deadly U-boats to rescue ships crippled by torpedoes and convoy collisions makes adventure reading that is truly unforgettable.
