

The BOZZ Chronicles (Dover Graphic Novels)

This is fantastic stuff. Brandon Graham (Prophet)The first single-volume collection of the six-part Epic Comics cult favorite, Michelinie (Iron Man) and Blevins (The New Mutants) daring graphic novel follows the adventures of a suicidal alien, a plucky prostitute, and a raucous American cowboywho team to form a detective agency that accepts oddball cases rejected by Scotland Yard. This madcap mash-up evokes the Victorian setting of the Sherlock Holmes mysteries, supernatural sleuthing in the style of Dr. Who, and a dash of steampunk attitude.
