

The Change

A tale of dark fantasy and transformation. Alice finds herself in a world gone mad, a world where some strange force is at work transforming women, all women, everywhere. You are in control. You choose her path through this dark mirror of our world as she struggles against the terrible forces fighting to alter her, to claim her. What will happen to her? Who and what will she become? In the end that is up to you. Written using Inklewriters interactive story creation software, this massive and sprawling story encompasses twenty five thousand words, hundreds of branches, and over 24 different endings. Including one secret hidden ending for those with the luck or determination to find it. I hope you enjoy this first foray into the world of self guided fiction. The story is what you make of it. I hope you find it entertaining, and arousing. This story contains themes of breast expansion and enslavement, mind control, bimbofication, iq reduction, obsession, slutty behaviour, animalistic behaviour and needs, and a wide variety of those things some people may find offensive.
