

Cutty Sark: The Last of the Tea Clippers

Cutty Sark was the greatest of the tea clippers and an iconic British institution. This new work describes the eventful history of this celebrated ship from her 1869 construction, her famous voyages, dramatic fire, painstaking restoration, and glorious reopening in April 2012. Developed with the Cutty Sark Trust, the book provides a chronological narrative along with detailed features on crew accounts, log entries, pieces on seamanship, ports and cargoes and broader tall ship culture, as well as an opportunity to focus on artifacts and the fittings of the clipper ship. It includes rare and previously unpublished historical images from the ships collections and those of the National Maritime Museum.
