Why is coloring for adults so popular? Because Coloring ... Makes You FEEL Good! When my Mom called and said she just bought a coloring book for adults... I had no idea what she was talking about. But when I saw her coloring book, I immediately grabbed my crayons and pencils and joined her in the fun! I quickly discovered that coloring is a little like meditation... because coloring allows you to shut off all the distractions of the day and get in your own quiet space. We were having so much fun coloring... that we decided to combine my love of Nature and Art to create our own version of a Coloring Book for Adults... Introducing: Whispers In Nature 1st Edition Fairies, Flowers & Feathered Friends. This coloring book is 8.5 x 11 and has 100 pages with 46 images to color. The pages are all one-sided so you don't have to worry about losing a picture on the back. We've also added some favorite inspirational sayings and quotes to a few pictures. And to add even more fun... we've added a little scavenger hunt. Did you know that Acorns have been considered to be an emblem of Good Luck, Prosperity, Youthfulness, and Power? That's why I strategically hid a few Acorns in some of

my drawings! Owners of the book will have a chance to go on a scavenger hunt to find the Acorns in the pictures and register to WIN Free Gifts. Happy Coloring!
