

The Handler

The only thing more formidable than an advanced super soldier is the man who tames her. Jax is a handler, a man tasked with the most dangerous job in the world - keeping genetically engineered ultra soldiers under control. He does his job very, very well through a combination of natural strength, some synthetic implants, and an iron hard approach to discipline. Sonya is an ultra soldier, a talented young woman with a bratty streak a mile wide. Unfortunately for Sonya, her old handler just died and she doesn't like the new one very much at all. Jax is a strong believer in long hard spankings as a consequence for bad behavior, and Sonya is a believer in getting away with damn near everything. The grieving young woman and her new master clash in a series of erotically charged confrontations during which Jax makes it abundantly clear that she is his in every way possible. He takes her pride, her arrogance and even her virginity. But an ultra soldier is made for war, and when Sonya is called to the front, she goes gladly, having no idea that she is being sent on a suicide mission. Jax knows better, but is powerless to save her from her fate - or is he? For Jax to save Sonya, he will have to go to the ends of the earth and the gates of hell. And for Sonya to survive, she's going to have to learn that there's more to life than rebellion and war. **THE HANDLER** is a fast paced, erotic action romance containing scenes of spanking, anal play, medical play and more.
