

# Autodesk Inventor 2010 Certified: Assemblies and Advanced Concepts Training Course

Autodesk Inventor 2010 Certified: Assemblies and Advanced Concepts is a progressive, multimedia Autodesk Inventor 2010 training tool that gives you the knowledge you need to develop Top-Down, Middle-Out, and Bottom-Up design methods. This computer-based Autodesk Inventor 2010 tutorial offers successful hands-on training in audio/video form. Unlike other types of training, the user can learn at their own pace as they interact with demonstrations. After the course is complete, the indexed software can be used as an Autodesk Inventor 2010 reference. The videos are made up of comprehensive, step-by-step lessons that teach the advanced Autodesk Inventor 2010 concepts required to streamline your work. Areas of mastery include: iParts iFeatures iAssemblies iMates Advanced parts Assembly constraints Flexible assemblies Mirrored assemblies Animated assemblies And much, much more! Besides being thorough, Autodesk Inventor 2010 Certified: Assemblies and Advanced Concepts is known for its ease of use: Easy to install Simplified learning process User-friendly interface - access directly from Autodesk Inventor 2010 Parts files included Tutorial index and search engine act as reference tools System Requirements: Windows, Speakers TEDCF Publishing produces this leading Autodesk Inventor 2010 Certified training course and is an Autodesk Authorized Publisher & Developer. The Autodesk Inventor 2010 Certified training videos are used by universities, companies, and individuals worldwide to create Autodesk Inventor 2010 experts and to build companies with a competitive edge.
