

The Nethercutt Collection : The Cars of San Sylmar

The Cars of San Sylmar by Dennis Adler, is the official publication of the famous Nethercutt car collection, a museum located in San Sylmar, CA. Having collected major automotive marques since WWII, Mr. J.P. Nethercutt has amassed one of the worlds most important automobile collections. Dennis Adler, an award winning automotive photographer & journalist with over 5,000 articles to his credit, was chosen by the museum to be the writer and photographer for this unique publication. A stunning visual masterpiece with many 2-page color spreads, no expense was spared to make this new 9x12 inch landscape book an extraordinary literary achievement. Not only are most of the more famous and well-known cars pictured and described, but all the cars are listed in a photo index. Additionally, there is a chapter on mechanical musical instruments, since the Nethercutt Museum also contains one of the worlds best collections of these rare and unusual artifacts.
