

## Unacceptable Behavior

Maxine Reynolds knows it is careless to read naughty stories on her phone while driving, but she is utterly shocked by the consequences when she rear-ends ex-CIA agent Rafe Jennings, the head of security at her place of work. After scolding her for her reckless and unacceptable behavior, he proceeds to give her exactly what she needs: a long, hard, thoroughly embarrassing bare-bottom spanking followed by a belt whipping over the edge of his desk. After her punishment, Rafe informs Maxine that from now on he will be making it his business to keep her in line, and though she protests, she cannot help recognizing that his guidance makes her feel safer and more loved than she's ever felt before. Still, she can't let herself believe that he could be genuinely interested in her or that he sees her as more than a girl who needs his help.

Yet once he takes her into his arms and claims her fully, Maxine begins to wonder if maybe he truly does want her as his own. But when Rafe is sent overseas for one last mission, her fears send her into a spiral of self-destruction. Will he return in time to rescue Maxine from herself?
