

Unpredictable Love (Flavors of Love Book 3)

Nate Porter and his girlfriend Hanna Townsend find themselves in the middle of a strange case. When models and designers start disappearing, Nate begins to worry about the wellbeing of his younger sister, Jessica. Things get even more worrisome when Jessica starts hanging around a fortune teller named Valli. He claims to see everything and can even suspect when someone is human or not. Soon Jessica starts to ignore everything to spend time with Valli and begins believing his words. To make matters worse, many of the missing designers and models turn up dead, their bodies drained of blood. Nate suspects that Valli might know more than he's letting on. Is the fortune teller behind all this? Or is there someone else that is pulling the strings?
