

Glimmer: Part 1 (urban fantasy werewolf romance)

Prepare to be fae-struck... You know those cute faery tales told to you when you were young? Well, they aren't real. There's nothing cute or quaint or charming about faeries. They are sinister, malevolent and unkind. I should know. My mother is one.

And she abandoned me at the age of ten to be raised by my human father. I love my father fiercely but it's hard taking care of him, because he's frail and slowly losing his mind. That's the result of being fae-struck, and the reason I've never gotten close to any one man. Until sexy as hell werewolf Severin Saint Morgan prowls into my life. Now everything in my life is changing. I can feel something, something dark and dangerous, rippling inside of me, bursting to be free. And I'm afraid I'll like it too much to stop it. **includes BONUS CONTENT** Prequel: Born with gills and not wings, Dashrael has always tried to prove himself to the high fae of Nightfall. A skilled tracker and hunter, his services have been used for a century. But the mission this time is different and goes against everything he believes in. And disobeying orders sets destiny into motion.
