

## War That Time Forgot Vol. 2

A lone USAF pilot, about to warn his superiors of the attack on Pearl Harbor, finds his craft suddenly crash-landing on a mysterious island populated with prehistoric creatures and soldiers of wars of the past, present and future -- including Tomahawk, Firehair, and Hans Von Hammer, the Enemy Ace! What bizarre force has compelled these military masters of every era to inhabit the same strange territory? Can they survive without killing each other or being devoured by dinosaurs?
