

Web 2.0: New Tools, New Schools

Web 2.0 has arrived--find out how it can transform teaching and learning! What is Web 2.0? Once upon a time, Web sites were isolated information silos--all content and no functionality. Today, the next generation of Web sites gives power to the end-user, providing visitors with a new level of customization, interaction, and participation. Many Web sites now allow users to upload, categorize, and share content easily. Weblogs and podcasts allow anyone to publish or broadcast on any topic. Wikis provide information that is constantly updated by the end-user. Open-source software is free and customizable. These new technologies are changing our relationship to the Internet. What can Web 2.0 tools offer educators? Web 2.0: New Tools, New Schools provides a comprehensive overview of the emerging Web 2.0 technologies and their use in the classroom and in professional development. Topics include blogging as a natural tool for writing instruction, wikis and their role in project collaboration, podcasting as a useful means of presenting information and ideas, and how to use Web 2.0 tools for professional development. Also included are a discussion of Web 2.0 safety and security issues and a look toward the future of the Web 2.0 movement. Web 2.0: New Tools, New Schools is essential reading for teachers, administrators, technology coordinators, and teacher educators. Topics include: -online collaboration tools -technology literacy-technology integration-teacher training-curriculum design-open source-blogs -wikis-podcasts-professional development Also available: Database Magic: Using Databases to Teach Curriculum in Grades 4-12 - ISBN 1564842452 What Works in K-12 Online Learning - ISBN 1564842363 Toys to Tools: Connecting Student Cell Phones to Education - ISBN 1564842479 The International Society for

Technology in Education (ISTE) is the trusted source for professional development, knowledge generation, advocacy and leadership for innovation. ISTE is the premier membership association for educators and education leaders engaged in improving teaching and learning by advancing the effective use of technology in PK-12 and teacher education. Home of the National Educational Technology Standards (NETS), the Center for Applied Research in Educational Technology (CARET), and ISTE's annual conference (formerly known as the National Educational Computing Conference, or NECC), ISTE represents more than 100,000 professionals worldwide. We support our members with information, networking opportunities, and guidance as they face the challenge of transforming education. Some of the areas in which we publish are:

- Web. 2.0 in the classroom-RSS, podcasts, and more
- National Educational Technology Standards (NETS)
- Professional development for educators and administrators
- Integrating technology into the classroom and curriculum
- Safe practices for the Internet and technology
- Educational technology for parents
