

Ravaged by Wolves (Werewolf Erotica)

Mallory is scouring the back country investigating reports of werewolves. She finds herself caught in a fierce blizzard, then dug out by a pair of ruggedly handsome men the next morning. When they take her back to their camp, she discovers that they're something more than human and they have a feral lust to match her own. Can she fend off two horny werewolves, or will she succumb to their ravaging desires? This 3200 word short story is for adults only. It contains shape-shifting studs, flying fur, talented tongues and feral sex.
