

Wolfen Choice (Untamed Hearts)

Book three in the Untamed Hearts Series Fire takes the life of the wolfen tribal leader, and a new leader must be found before catastrophe befalls the pack. Only Cole, young irresponsible and unattached, has felt the talismans heat. Is he the chosen one? Fire devastates the forest, taking the life of the wolf tribe leader and his mate. With the amulet holder dead, a new leader must be chosen. Cole is young, headstrong and enamoured of his carefree ways. He discovered the bodies, and hes the changeling who brings the amulet back to his pack. Zane has been a convenient sex partner for Cole, who continues to resist the ties of commitment. When the men come across another pack decimated by the fire, including a beautiful female unlike any theyve seen before, Cole discovers that there may be more to life than playing the field. With dissention among the pack and an unwilling Cole who might very well be the chosen amulet holder, will the wolfen tribe find its new leader? Or will confusion, mistrust and greed destroy them all?
